ANIMAL CONTROL - We're going to once again see deer and small wild animals around the Park if all will control their pets and not let them run loose. This means keep your pets either in fenced area or tied except when in direct control and ready to be responsible for their actions. As the minutes relate, the county Animal Control Officer has been in the Park and picks up unsupervises pets, ligansed or not. 1. The plantage of the second of the seco

CHECK THOSE WATTER LINES - Start making sure your water lines can be turned off and drained whenever leaving the Park. Freezing weather could sneak up on us anytime now. Also be sure to protect your waste traps and toilet bowls & tank. A cup of cheap anti-freeze in each of these can keep from cracked fixtures caused by freeze. In final, repair all leaks, even a drip can cause a lot of water waste in a month.

HOUSEHOLD GARBAGE - means just that! No lot cleanings, old matresses and such Only your cans and wet garbage! Please make an honest effort to get it all in the provided bins. We've had quite a mess lately of piling by or on top of full bins while others are only partly full.

WATCH the lighted sign by Rec Hall for Potluck Dinner nights and goings on at the Park and we see or amore walking or one colour and the engine
