SIERRA PARK NEWS FOR APRIL 1987

THE TRIAL DATE FOR JONES VS. THE PARK HAS BEEN SET FOR APRIL 21, 1987.

SIERRA PARK LODGE #376 Odd Fellows meetings are held the 2nd & 4th Sat. of each month at 7 PM in the Rec. Hall. Next meeting will be on the 25th of April. An Initiatory degree will be conferred in the Sonora I.O.O.F. Hall on April 15, 1987 at 8 PM. We expect to have our candidates there.

WEATHER Spring weather is still unsettled so winterize your cabins and bring chains when coming to the Park until Memorial Day.

NO SEWING CLUB UNTIL THE WEATHER GETS BETTER

POT-LUCK We have postponed our dinners until the weather gets better. Watch the newsletter and the bulletin board outside the Rec. Hall as to when they will resume. The next one will probably be in June.

REMINDER TO PROPERTY OWNERS Property owners who sell please notify the board or bookkeeper. If you change your address please let us know as the minutes are not forwarded.

PINE NEEDLE TIME - Clear lots of pine needles and take to burn area in the meadow. See sheet attached.

Have a Happy Easter!!

See you next month . . . . . Sierra Sue

The bylaws of Odd Fellows Sierra Recreation Association allows for written proxies. Since it is necessary to have a quorum (1/3 of the membership) at the 1987 annual meeting, and prior annual meetings have been found to be delayed or bordering cancellation because of not meeting quorum requirements, the Board of Directors is asking those not attending this year's annual meeting to seriously consider exercising a written proxy.

We have enclosed a proxy for your convenience. Whether you have the Board exercise your proxy or you choose someone else to act as agent isn't important to the Board. What is important is your right to execute a vote. All written proxies must be filed with the Secretary prior to the 1987 Annual Meeting and reviewed by the inspectors of the election for authenticity and validity.

Members who execute a proxy and later decide to attend the meeting can rescind their written proxy by voting in person. If you are in doubt, please complete the proxy statement and authorize someone to vote on your behalf.

Please mail proxy to Del Wallis, Secretary, Odd Fellows Sierra Recreation Association, P.O.Box 116, Long Barn, CA 95335

REDUCTION OF FIRE HAZARDS AROUND BUILDINGS

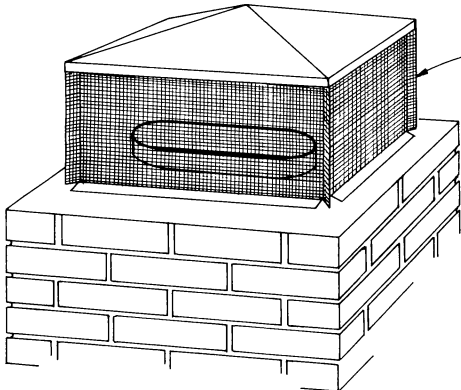

Any person that owns, leases, controls, operates, or maintains any building or structure in, upon, or adjoining any mountainous area or forest, brush, or grass-covered lands or land covered with flammable material shall at all times do all of the following:

- A. Maintain around and adjacent to such building or structure a firebreak made by removing and clearing away, for a distance of not less than 30 feet on each side thereof or to the property line, whichever is nearer, all flammable vegetation or other combustible growth. This subdivision does not apply to single specimens of trees, ornamental shrubbery, or similar plants which are used as ground cover, provided that they do not form a means of rapidly transmitting fire from the native growth to any building or structure.
- B. Maintain around and adjacent to any such building or structure additional fire protection or firebreak made by removing all brush, flammable vegetation, or combustible growth which is located from 30 feet to 100 feet from such building or structure or to the property line, whichever is nearer, as may be required by the State Forester when he finds that because of extra hazardous conditions a firebreak of only 30 feet around such building or structure is not sufficient to provide reasonable fire safety. Grass and other vegetation located more than 30 feet from such building or structure and less than 18 inches in height above the ground may be maintained where necessary to stabilize the soil and prevent erosion.
- C. Remove that portion of any tree which extends within 10 feet of the outlet of any chimney or stovepipe.
- D. Maintain any tree adjacent to or overhanging any building free of dead or dying wood.
- E. Maintain the roof of any structure free of leaves, needles, or other dead vegetative growth.
  - (f) Provide and maintain at all times a screen over the outlet of every chimney or stovepipe that is attached to any fireplace, stove, or other device that burns any solid or liquid fuel. The screen shall be constructed of nonflammable material with openings of not more than one-half inch in size.
  - (g) The State Forester may adopt regulations exempting structures with exteriors constructed entirely of nonflammable materials, or conditioned upon the contents and composition of same, he may vary the requirements respecting the removing or clearing away of flammable vegetation or other combustible growth with respect to the area surrounding said structures.

No such exemption or variance shall apply unless and until the occupant thereof, or if there be no occupant, then the owner thereof, files with the State Forester, in such form as the State Forester shall prescribe, a written consent to the inspection of the interior and contents of such structure to ascertain whether the provisions hereof and the regulations adopted hereunder are complied with at all times.
